

*The top panel of a Schmetz needle box is a magnifier to enable you to read the size printed on the needle!*

**Universal**

"One size fits all"  
Slightly rounded tip pushes fibres aside sometimes resulting in wobbly line of stitching

*Needle sizes - Opposite to Threads  
Higher number - Thicker Needle  
Lower number - Thinner Needle*

*Sharp needles pierce the fibres (instead of pushing them aside) resulting in a smoother, straighter line of stitching.*

**Topstitch (larger eye)**

90 or 80

for thicker threads  
Cotton Perle No.12  
Metallic threads

*Topstitch and Metallica needles are interchangeable*

**Metallica (larger eye)**

90 or 80

Metallic threads  
Thicker threads
